## SACAA 2022 PLANNING & FOCUS ON PERFORMANCE

16 September 2021

Dear **SACAA** Members,

**SACAA** is planning 2022 as we feel that 2022 will be a bumper year.

We supply, attached hereto a list of the meetings we are planning.

### Some interesting issues:

- 2022 We don't have meetings on Monday's and Friday's, as we have been requested to keep these open.
- 2022 Some subjects only have one meeting scheduled – but, if needed, we will hold a further meeting.
- 2022 All the subject matters are relevant to what **SACAA** represents and what members need.
- 2022 We do not allow competition issues to be discussed.
- 2022 We have in the region of 11 meetings planned for **SACAA**.
- 2022 The subjects covered are listed below – should there be any not attended to, please feel free to advise us at **SACAA** what you feel we must handle as a service to the industry:

• MANCOM	4
• Technical Talks	4
• Industry Related Talks	2
• Conference	1

- 2022 Please note that the attached planner is in draft form and Members are requested to forward comments to **SACAA** until 15 November 2021.

We trust that companies will diarize these. Please may we also request that those who indicate/accept attendance to meetings, do actually attend, as we very often found that people accept an invite, but do not necessarily attend.

Yours sincerely,

**Belinda Heichler**  
**SACAA President**
